

# **Desert Snow**

## **Specialized Highway Criminal Interdiction and Asset Forfeiture Workshop**

### **Phase 7**

*The Phase 7 course focuses on specific areas, emphasizing on common roadside skills. This course is designed to provide the knowledge and skills necessary to identify suspicious indicators of terrorist and or criminal activity with respect to passenger vehicles that transit the highways of North America. It is also designed to provide attendees with the knowledge and skills to identify detect and access concealment areas. Special emphasis is also placed on bulk currency seizures and how to effectively process them. Roadside communication skills is also taught in order that officers may separate the innocent motoring public from those involved in major criminal activity. This course is primarily exercise-based with lectures, demonstrations, and group discussion all occurring in practical exercise forums.*

*Law enforcements goal is not only that of a first responder...It's a goal of prevention!*

*Uniformed Officers across the United States identify and apprehend more major criminals than any other branch of law enforcement, simply because major criminals are most vulnerable while in transit. Since 9/11, Major Criminal Elements have forsaken commercial air travel and prefer Interstate and Intrastate highway systems in both the United States and Canada. The Oklahoma City Bomber, Trench Coat Bandits and hundreds of other major criminals including suspected terrorists have all been arrested by Uniformed Officers while performing routine, daily, enforcement assignments! These officers, who provide law enforcement coverage 24/7, 365 days each year, are the eyes and ears of this Nation. It is vital for our continued security to utilize these assets.*
